

# ***Chocolate Dipped Strawberry Cake Balls***

1 Strawberry (or other flavor) Cake Mix

1 Can ready-made frosty -- creamy (not whipped)

14 oz. package Wilton Candy Melts -- Light Chocolate

14 oz. package Wilton Candy Melts -- Pink Vanilla

Lollipop Sticks

Bake the cake as directed on the box (you will need the oil and eggs per the instructions). Let cool. Take cool cake and break it into small pieces in a large bowl. Mix in 3/4 of the can of frosting. Still until well mixed. Form into small balls and freeze for 15-20 minutes. Melt the candy pieces according to the directions on the package. Dip the end of a lollipop stick into 1/2" of the melted candy and insert into a Cake Ball. Quickly and in one motion, dip the entire cake ball into the melted chocolate, completely covering it. Do this for each cake ball. (I made about 40 Cake Balls from one recipe although this will vary depending on the size you make your Cake Balls). Return to the refrigerator until the chocolate is completely set. Drizzle melted pink candy pieces over the top for added embellishment.
